### Ergonomic Tilting Seat

The seat tilts when the chair reclines and softly supports patients whole body to provide optimal position and comfort for the patient

### Slim Backrest for optimal accessibility

The thin but comfortable backrest optimizes accessibility for the doctor.

### Spacious Delivery Table

You can place various instruments on this wide Delivery Table for diverse treatments

### Flexible Assistant Table

The Assistant Table moves in a wide range to provide enough space for perfect assistance.

This table has  
4 instrument holders.  
1 High Volume Ejector  
1 Saliva Ejector  
3-way Syringe  
1 Empty

## Scope of Warranty

- This document supersedes any other warranties, agreements, conditions, or other responsibilities, express or implied.
- If Mega'Gen determines that the product has a defect that is covered under this Warranty, the product will be repaired or replaced with a product that is comparable to the original in performance.
- If the product is covered under the Mega'Gen Warranty, no part costs will be charged.
- All product warranty coverage is from date of shipment from Mega'Gen to the Buyer.
- Products not manufactured by Mega'Gen are covered by the original manufacturer's warranty as specified in the warranty period.
- All Mega'Gen warranty terms and agreements are non-transferable and apply only to the original device and the original buyer.
- This warranty is void in the event of damage, failure, or defect due to improper maintenance, alteration, or repair by Mega'Gen or anyone other than an authorized dealer.
- The style and color options available for service may vary, and if the product or color is discontinued, a replacement that is most like the existing product may be provided.
- It is guaranteed to be one year after the part is replaced or larger than the rest of the original warranty period.
- If you have any questions that are not covered by this warranty, please contact Mega'Gen Customer Service.
